LAB

Lab No: 1 – Python Installation

Introduction

In this lab, we installed the latest version of python and vs code.

Tools Used

VS Code

Task 1: Accurate Installation of python and compiler

Screenshot

Python releases by version number:

Release version	Release date	
Python 3.14.2	Dec. 5, 2025	Download

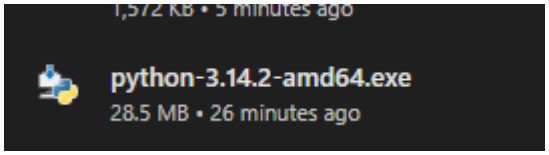
Python 3.14.2

Release date: Dec. 5, 2025

Windows

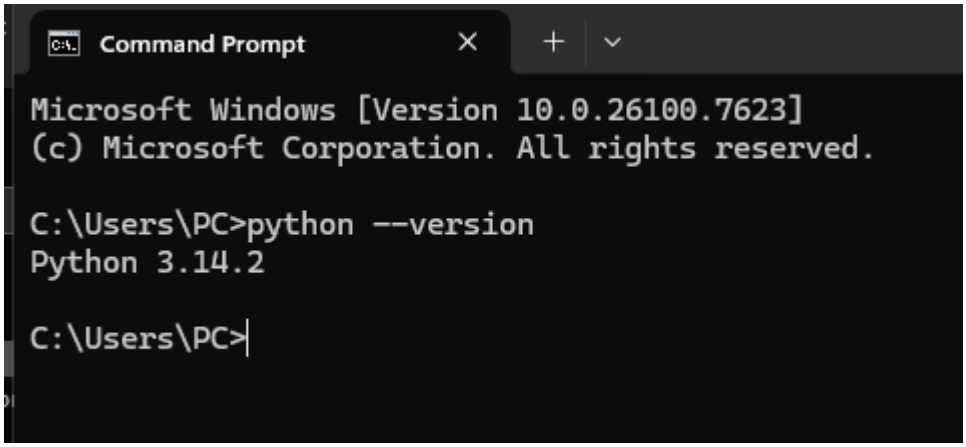
Download Python install manager

Windows installer (64-bit)	Windows	Recommended	28.5 MB

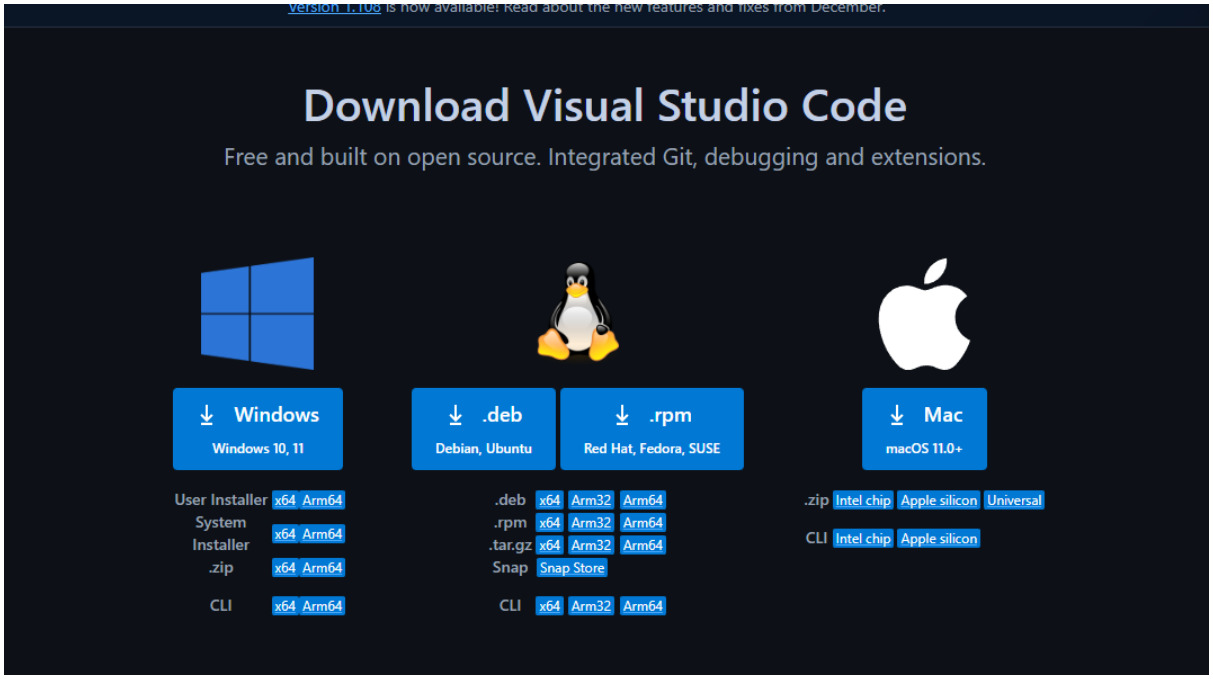


1,572 KB • 5 minutes ago
python-3.14.2-amd64.exe
28.5 MB • 26 minutes ago

Python 3.10.1 (64-bit) Setup
Install Python 3.10.1 (64-bit)
Select Install Now to install Python with default settings, or choose Customize to enable or disable features.
Install Now
Includes IDLE, pip and documentation
Creates shortcuts and file associations
Customize installation
Choose location and features
Install launcher for all users (recommended)
Add Python 3.10 to PATH
Cancel



Command Prompt
Microsoft Windows [Version 10.0.26100.7623]
(c) Microsoft Corporation. All rights reserved.
C:\Users\PC>python --version
Python 3.14.2
C:\Users\PC>



Task 2: Write a Program to evaluate the grade according to marks.

Code

```
marks = int(input("Enter your marks: "))

if marks <= 100 and marks >= 85:
    print("Grade A")
elif marks < 85 and marks >= 70:
    print("Grade A-")
elif marks < 70 and marks >= 55:
    print("Grade B")
elif marks < 55 and marks >= 45:
    print("Grade C")
elif marks < 45 and marks >= 33:
    print("Grade D")
elif marks < 33 and marks >= 0:
    print("Grade F")
else:
    print("Enter valid input")
```

Screenshot

```python
marks = int(input("Enter your marks: "))

if marks <= 100 and marks >= 85:
    print("Grade A")
elif marks < 85 and marks >= 70:
    print("Grade A-")
elif marks < 70 and marks >= 55:
    print("Grade B")
elif marks < 55 and marks >= 45:
    print("Grade C")
elif marks < 45 and marks >= 33:
    print("Grade D")
elif marks < 33 and marks >= 0:
    print("Grade F")
else:
    print("Enter valid input")
```

```
PS C:\Users\PC\Umama\pythonProjects> python gradeEvaluator.py
Enter your marks: 90
Grade A
PS C:\Users\PC\Umama\pythonProjects> python gradeEvaluator.py
Enter your marks: 44
Grade A
PS C:\Users\PC\Umama\pythonProjects> python gradeEvaluator.py
Enter your marks: 44
Grade D
PS C:\Users\PC\Umama\pythonProjects> python gradeEvaluator.py
Enter your marks: 2
Grade F
PS C:\Users\PC\Umama\pythonProjects>
```

Conclusion

In conclusion, we successfully set up python with visual studio code. Additionally, we programmed and basic grade evaluator to gain hands-on experience with python.
